CLAIMS

I Claim:

1. To establish the Bar and Restaurant Virtual Private Network, (BRSVPN), a national

   Internet-Protocol Virtual Private Network (VPN) that provides a variety of ordering

   services,

   communications services

   inventory services and

   accounting services to subscribing bars and restaurants.

2. That the core of the BRSVPN will be a central located server farm, the only editing-input

   point to the network.

3. That the edge of the BRSVPN will be the customer's swipe of a credit card,

   debit card or

   smart card.

4. That the edge of the BRSVPN will constitute a computer process unit with touch screen

   located at the customer's table or booth.

5. That the BRSVPN will function as an advertising medium of national,

   regional,

   branding,

   and local advertising directed to beverage and food consumers in bars and restaurants

   at the Point of Purchase.

6. That the BRSVPN allows bar and restaurant customers to purchase additional

   merchandise,

   services and

8

events tickets at the bar or restaurant table.

7.   That the BRSVPN allows bar and restaurant customers to check stock prices and

       sports news at the table.

8.   That the BRSVPN allows bar and restaurant customers to find products and services in a

       local ad directory.

9.   That the BRSVPN contains an electronic ordering system comprising a wireless Local

       Area Network (WLAN) that includes computer processors and

       touch screens at each table, connected to

       wireless access points and

       local server.

10.   That the local server will be connected to the BRSVPM by means of the Internet.

11.   That the BRSVPN will provide inventory

12.   sales data and

13.   accounting information for subscribing bar and restaurant owners.

14.   The BRSVPN will provide pay-per-view media by means of the Internet Protocol.
